YOU ARE OUR BEST AMBASSADORS. We are counting on you to help spread the word about the contributions of Latinos. This toolkit includes:

- **Information About the Campaign**
- **A Message Manual** providing research-based guidance and language you can use to spread the word in conversations, presentations, and through your own materials.
- **Campaign Videos**
- **Social Media Content** to use throughout the campaign
Count on Us is a public communications campaign to raise awareness of Latinos’ contributions to Arizona’s economy and culture, and inspire action to remove barriers that Latinos and others face—in employment, education, housing, and health care. When more Latinos have access to good jobs, education, homes, and healthcare, they contribute even more to Arizona’s economy and communities.

The campaign is a project of UnidosUS, the nation’s largest Latino civil rights organization, in collaboration with eleven Arizona affiliates: Amistades, Arizona Hispanic Chamber of Commerce, Campesinos Sin Fronteras, Chicanos Por La Causa, Comité De Bien Estar, Friendly House, Hispanic Women’s Corporation, Mexicayotl Academy, Mountain Park Health Center, Promise Arizona, and Valle del Sol.

The campaign is targeted to non-Latinos; national research commissioned by UnidosUS shows that most U.S. residents feel warmly toward Latinos, but do not recognize the contributions they make or barriers they face. Opening eyes to these realities can encourage more U.S. residents and leaders to support expanded access to equal opportunity for Latinos and others.

The campaign comes at a time when the Latino population has become the largest demographic group in Phoenix, according to data from the U.S. Census Bureau. Arizona is at the leading edge of demographic change in the U.S. The state can be a model for the nation in responding to this change in positive, productive ways that benefit everyone.

Phoenix residents will see the Count on Us advertising campaign on digital platforms, billboards, and websites they go to for news and entertainment. Ads will invite people to the Count on Us website, where they can learn more and connect with UnidosUS and local affiliates to support their work.

The people in the campaign are real Arizona Latinos who are contributing to their communities and making a difference for all Arizonans.

Kathy Cano-Murillo is an artist and entrepreneur living and working in Phoenix. You may know her as the Crafty Chica. She is a third-generation Mexican-American who celebrates her culture through her work.

Stephanie Vasquez owns and runs Fair Trade Cafe. She also founded Ella AZ, an organization dedicated to Latina leadership and empowerment, and Mujeres Mercado, a marketplace for Latina businesses.

Dr. Lupita Hightower is the Superintendent of Tolleson Elementary School District. Her work serving the children of Arizona has resulted in being named Arizona Superintendent of the Year, National Latinx Superintendent of the Year, and a Cox Communications Hispanic Heritage Awardee.

Rob Ortega is an insurance adjuster and business owner. He runs his own appraisal business, B&E Appraisal Services, in Phoenix and Tucson.

Ardell Deliz is a Fire Captain with the Phoenix Fire Department. She has been with the Fire Department for over 20 years. She co-founded Valley Women’s Firefighter Society, is a member of the Technical Rescue Team, and coaches mountain biking at Franklin Police and Fire High School.
COUNT ON US CAMPAIGN KEY MESSAGES

FIFTEEN-SECOND MESSAGE

Latinos are hardworking people who have contributed to Arizona’s economy and culture for generations. We should remove unfair barriers that deny Latinos access to opportunity and make it harder to care for our families and contribute to our communities. Doing so benefits all Arizonans.

ONE-MINUTE MESSAGE

Latinos are hardworking people who have contributed to Arizona’s economy and culture for generations.

Like all Arizonans, we want to take care of our families and contribute to our communities.

Despite our contributions to the state, the realities of our lives aren’t always recognized.

Government policies, business practices, and divisive politics set up unfair barriers that deny us access to real opportunity.

For example: Arizona policies prohibit multilingual education. Banks deny credit and loans more often to Latino households. Pregnant women and children who are recent legal immigrants are denied health care.

We should change policies, practices, and beliefs that hold Latinos back. When more Latinos have access to real opportunity—like good jobs, education, homes, and health care—we can take good care of our families.

By removing barriers and including Latinos, we can contribute even more to our economy and communities—and that benefits all Arizonans.
LATINO CONTRIBUTIONS TO ARIZONA

Latinos have shaped life in Arizona for generations. Like all Arizonans, they want to do well for their families and contribute to their communities through jobs, spending, taxes, and culture.

LATINOS KEEP ARIZONA WORKING.
• Latino-owned businesses employ more than a million people in Arizona. *(DATOS)*
• The state’s hospitality, agriculture, health care, and professional services industries depend on Latino workers. In fact, more than 7 in 10 front line workers are Latino. *(Bureau of Labor Statistics)*
• Almost half of Arizona’s K–12 students are Latino, so they are a big part of the next generation of Arizona workers, too. *(Census Bureau)*

LATINOS HELP DRIVE A HEALTHY STATE ECONOMY.
• Arizona Latinos produce goods and services worth more than $90B each year. *(DATOS)*
• Latinos spend over $63B a year at businesses right here in Arizona. *(DATOS)*
• And every year, Latino immigrants contribute $2.4 billion tax dollars to help support our schools, roads, emergency services, and much more. *(State of Arizona)*

LATINOS CONTRIBUTE TO ARIZONA’S QUALITY OF LIFE—CULTURE AND INFRASTRUCTURE.
• From Arizona’s history to our food to our art, Latinos have always played a part in Arizona’s unique culture and quality of life.
• Latinos are leaders in business, government, education, and the arts. In fact, they lead all types of Arizona organizations: banks, construction companies, restaurants, factories, foundations, and educational institutions like Arizona State University.
When more Latinos have access to good jobs, education, homes, and healthcare, they can build good lives for themselves—and contribute even more to Arizona’s economy and communities.

ARIZONA LATINOS FACE BARRIERS IN HEALTH CARE.

Latinos are hardworking people who have contributed to Arizona’s economy and culture for generations. We should remove unfair barriers that deny Latinos access to opportunity and make it harder to care for our families and contribute to our communities. Doing so benefits all Arizonans.

Federal law permits states to waive the 5-year waiting period before many legal immigrants are permitted to enroll in Medicaid and CHIP for pregnant women and children. Arizona is one of only a handful of states that has not provided access to much-needed care by applying the waiver. Lack of health insurance and affordable care for anyone affects all of us. Arizona should adopt the waiver and open up access to care for those who need it most.

ARIZONA LATINOS FACE BARRIERS IN EDUCATION.

There are not enough Latino educators in Arizona. Today, 46% of Arizona students in kindergarten through 12th grade are Latino. However, far fewer Latinos are educators and school administrators. Research indicates that test scores and attendance improve when children have teachers who are like them.

Multilingual, multicultural education benefits all students. In 2000, Arizona passed a state law prohibiting bilingual education. Placing multilingual students in English-only classrooms for subjects like math and science limits their success and affects test scores and graduation rates.

ARIZONA LATINOS FACE BARRIERS IN HOUSING.

Rising rents and home prices in Arizona put housing out of reach for many low- and even middle-income people. It takes a wage of over $20 per hour to afford a one-bedroom apartment in Arizona, yet minimum wage is $12.80 an hour.

Latinos spend a higher percentage of their income on housing than others in the state. Almost 25% of Latinos spend more than a third of their income on rent or mortgage, compared with 16% of non-Latinos.

The homeownership rate of Latinos in Arizona is almost double that of the US population as a whole, but not enough homes are being built in areas with high Latino populations.
Commit to working together with other leaders and organizations to remove barriers that hold back Latinos and other Arizona residents from having the opportunities and tools we all need to live, learn, and thrive. **Here are some ideas to get you started.**

- **Share photos** and/or posts from this event to your/your organization’s social media account(s). Make sure to include the hashtag #CountOnUsAZ and tag @weareunidosus.

- **Broadcast live** to your social media account(s) from the launch. It could be something like saying where you are, what the campaign is hoping to do, and letting your followers know they can keep checking back for more content from this campaign throughout the next two months. Or keep it even simpler by saying, “My name is [blank] and Arizona’s Latino community can count on me.”

- Use the provided outreach toolkit to promote the campaign and Latinos’ contributions to the community throughout Hispanic Heritage Month (September 15 - October 15).

- **Share the stories** of our campaign spokespeople (provided to you) on your social media channels and encourage your followers to weigh in with their own favorite local champions.

- Use the provided storytelling formula to **share your own stories** or stories of champions in your lives to your social media accounts, email lists, blog audience, etc.

- **Host Twitter town hall(s)**, Twitter Spaces, Facebook Live, and/or Instagram Live conversations to speak with your audiences about Latinos’ contributions to the community, barriers they face, and possible solutions that would make a better Arizona for everyone. *(Contact us for help, if you’d like!)*

- Follow @WeAreUnidosUS and its Arizona affiliates to stay engaged in the long-run.

- Opt in to our network of allies, allowing us to share social media posts and content that others across the network can reshare and amplify. *(Don’t forget to follow the other allies taking part to build a network of allies even after this campaign is over.)*

- **Reshare content** from other people posting about the campaign and Hispanic Heritage Month.

- **Write an op-ed or letter** to the editor promoting Latinos’ contributions to the community, to be placed around Hispanic Heritage Month. *(You can contact us for assistance drafting, editing, pitching, or placing.)*

- **Access the Toolkit Online** [https://countonusAZ.org/toolkit](https://countonusAZ.org/toolkit)
Count on Us Campaign Video
These will run on television and online. Please feel free to use and share widely through social media, online and in meetings.

Do:

- Remember, the limit for a Twitter post without links is **280 characters** and **257 characters** for a post with links.
- Remember that people are more likely to engage in social media when there is a visual component like a photo, video, or image from a link. Images do not count against your 280 characters but links do.
- Tag @WeAreUnidosUS, use the #CountOnUsAZ in your post so that we can see and share it.
- Feel free to personalize as you wish.
